Nº 1201.

AMERICA.

Newport, Rhode-Island, Feb. 23.

On the 14th Inst. one George Vaughan of North Kingston had a Mare that sunk an extraordinary deform'd Foal; it has two Heads out of one Neck, four Eyes, four Ears, and four Legs; is about the Bigness of a large Lamb; it has Hair on the Mane and Tail, but none on the Body.

It was brought over here last Tuesday the 20th Inst. for a Show; and considerable Money was got for the Sight of it.

We are informed by Mr. Henry Myer, Merchant of this Place, That on the 28th of January last he went in the Schooner Three Sisters, Henry Bush Master, as a Passenger bound to New York, who met with a violent Storm of Snow and Wind at North-cast, and struck on the North Side of Block Island, where they lost their Rudder, and received considerable Damage in the Cargo, and very narrowly escap'd from perishing in the Sea; but by the good Providence of God the next Day they got into Stonington Harbour, and refitted the Vessel in order to proceed on their Voyage: And it is hop'd that the Vessel has got so her desir'd Port before this Time.

On the 17th of January last arrived here Peter Bourke, Esq; with the rest of the proper Officers that were sent by our Authority to Block-Island, to inspect into the Affairs of those poor distressed People the Palatines, by whom we are inform'd as follows:

That the Ship mentioned in our last Print stranded upon Block-Island, being chiefly owned by Persons belonging to Ramsgate in England, and commanded by George Long, left Plymouth sometime in August, bound for Philadelphia, with about Four Hundred Palatines on board, which they took in at Rotterdam: That an exceeding bad Fever and Flux prevailed among them; that but about One Hundred and Five were landed upon Block-Island; and that since their Arrival there, their Illness continuing, the Number is reduced to about Ninety. Captain Long, with several of the Mariners, died on the Passage. The chiefest Reason assign'd for so great a Mortality, is the Badness of their Water taken in at Rotterdam in Casks that had before contained White and Red Wines. The Hull of the Ship, (which had no Cargo in belonging to the Owners of her) together with the chiefest Part of the Goods of the Palatines, are intirely lost in the Sea; great Care has been taken by the Authority, that what is saved may be secured for the Benefit of those surviving distressed People; many of whom it is said left their Country purely to enjoy their religious Privileges in America.

Dorchester, Feb. 26. Last Night between nine and ten o'Clock we had as terrible a Storm of Thunder and Lightning as perhaps was ever known; it broke in several Places: In particular, upon the Dwelling-House of Mr. Nathaniel Langley, who was sitting with his Wife by the Fire, about three Foot Distance from one another; it struck the North-west Part of the Top of the Chimney, and broke down several Bricks: It likewise enter'd the South-east Part of the Chimney, where it lighted on the Head of a Principal of the Roof, and split it down to the Foot; and passing thro' one Corner of the Plate, it struck into a Post: It likewise broke out at five or six Places at the West End of the House. The Violence of the Stroke threw Mrs. Langley near seven Foot Distance from where she was sitting, where she was taken up for Dead in all Appearance, but recover'd in about an Hour afterwards, and thought her Legs and Back had been broke by the Blow. A Maid likewise in the same Room, about 15 Foot distant from Mrs. Langley, was struck down, but soon recovered. Mr. Langley received no other Hurt but the scorching one of his Legs, although near in a direct Line between the two Persons struck down. Mr. Heyman likewise and his Wife were sitting in their House near the Fire-Place, and there came down the Chimney, to their Appearance, a Ball of Fire of considerable Bigness, with a terrible Noise, but no perceivable Effect but their Surprise. It is farther observable, that as Mr. Heyman's House is about sixty Rods due

South from Mr. Langley's, so about three Quarters of a Mile due South from Mr. Heyman's there was a large Oak Tree struck in a surprising Manner the same Night.

New York, Jan. 9. From Rooky-Hill in Somerset, New Jersey, we hear that a Negro Man of Robert Hooper, Esq; being ordered by the Overseer's Wife to bring in some Wood and make Fire, he replied, in a surly Tone, that he would make Fire enough, and pursued her with an Ax: To avoid his Fury she fled to the House, and shut the Door on herself; but in the Hurry she unhappily lock'd her little Son out, him the Negro struck so that the whole Breadth of the Bit of the Ax enter'd the Cavity of the Body, between the Shoulders and the lower Part of the Neck, so as to wound the Pericardium, and afterwards mangled him by other Blows; then he immediately set Fire to Mr. Hooper's Barn, in which there was about 1000 Bushels of Grain, and then endeavoured to escape; he was soon taken and tried, and on the third Day executed by Fire.

New York, Jan. 15. We are inform'd, that about three Weeks ago, the Sloop Pembroke, St. George Tucker Master, bound from Jamaica to this Place, having on board a valuable Cargo of Molasses, had the Misfortune to run ashore on the Beach near Rocky-Way, by which unhappy Accident the Sloop and Cargo are lost, except about 20 Hogheads; they likewise saved the Rigging, &c.

On Saturday last a Ship that was bound from Holland to Philadelphia, with above 200 Palatines, put in here, having been 16 Weeks and 5 Days from Plymouth: The Ship having so long a Passage, a great Number of the Passengers have died for want of Necessaries.

We are likewise inform'd, that Nine Thousand Germans have transported themselves from the Rhine this last Summer for Pennsylvania.

New York, Jan. 30. We are informed from New Brunswick in New-Jersey, That two Men near that Place having had some Words together, one of them told the other, that he would be reveng'd on him by setting his House on Fire, and accordingly he took his Opportunity and set the four Corners of the House on Fire; at which Time two young Children were in the House alone, upon whom he bar'd the outside of the Doors so that they could not get out. The Man seeing his House on Fire, and his Children in it, got into it, and took his Children up in his Arms; and as he was carrying them out, a Beam, that was burnt thro', fell down and struck the poor Children out of their Father's Arms; and the Flames being very furious, he was obliged to leave his Children to save his own Life.

Boston, Feb. 12. We hear from Stasia, by the Way of Rhode Island, that Capt. Lothrop, in a Ship belonging to this Town, bound to the West-Indies, was overtaken in the Latitude of Bermudas, but by cutting off her Main and Mizen-Masts, she righted again; by which Means the People sav'd their Lives, and carried the Ship to that Place.

Boston, Feb. 19. We have an Account from Lunenburg, that a very uncommon and sorrowful Accident happened there on the first Instant, viz. Several Men in trying a new Gun by firing at a Mark against the Side of a Barn, one of the Bullets struck against a Piece of Iron in its way, and splitting in two, one Piece flew to a considerable Distance from the Barn, and having its direct Course alter'd, struck Dr. Rice, as he was travelling the Road, on the Forehead or Temple, whereby he was wounded to such a Degree as that he died about Nine o'Clock that Night: That Piece of the Bullet which struck Dr. Rice was found in his Hat; the other Piece, which flew a quite contrary Way, fell down by the Rev. Mr. Sterns's Door, where some People were standing, but did no Hurt.

LONDON.

Yesterday arrived a Mail from France, with the Paris Letter of Wednesday last, and these Advices.

Letters of the 11th of April O. S. from Genoa say, that according to all Accounts, both from Calvi and Bastia, the Undertaking against Monte Maggiore is put off to another Time, our General, the Marquis de Maillebois, judging he has not Men enough for that Purpose till the Arrival of fresh Succours. Mean time three of the principal Men at Balagna having been to wait upon the General in private, he has since granted four Captain's Commissions to as many Corsicans that are well-affected to authorize them to raise each a Company of their own Nation; so that it seems as if the Design is to set the Corsicans against one another. The Hostilities continue on both Sides, each burning and plundering wherever they come, and the Rebels especially give Quarter to none. They took one of our Serjeants, and three of our Soldiers, and shot them to Death immediately; and a Butcher of our Army, who went from Bastia to the Parts adjacent to buy Cattle, was met by a Gang of their Banditti, who robb'd him of 400 Livres, and then murder'd him. A Corsican of our Party having gone out with twenty of his Men, and burnt a Mill belonging to the Rebels under Monte Maggiore, the Marquis de Maillebois made him a Present of a Gold Snuff Box.

Hyacinth Paoli, one of the principal Leaders of the Rebels, has caused a kind of Manifesto to be published in Vindication of the Conduct of himself and his Colleagues, which is drawn up in very moderate Terms; but concludes with this Quotation from the Maccabees, 'Tis better to die than to live to see the Misfortunes of our Nation; for the Scope of it is to prove, that if they return under the Dominion of the Republick, there's no Sort of Evil, Calamity, Desolation and Persecution, which they have not Reason to expect.

The Marquis de Maillebois has dispatch'd two Vessels one after another to Antibes, to fetch Reinforcements; but the bad Weather has detain'd them several Days in Port.

The eldest Princess Dowager Conti died last Sunday, aged 73.

The N. S. do Monte do Carmo e S. Joseph, Capt. Joao Roiz Pego, bound from Lisbon to the Western Islands and the Rio de Janeiro in Brazil, before arriving at the said Islands was forced back to the Coast of Portugal, and left near Viana.

On the 16th Instant Mr. Charles Snow, of Newark in Nottinghamshire, was robb'd by a single Highwayman on the Heath in Lincolnshire of 168 l. the proper Money of Mr. Pocklington, which he was carrying to pay for him at Sleaford; of which he has given the proper Notice, in order to recover the same of the Hundred of Loveden, wherein the Robbery was committed.

Yesterday the Rev. Dr. Foulkes preached before his Majesty, the Duke and the Princesses, at the Chapel Royal at St. James's. The Sword of State was carried before his Majesty to and from the Chapel by his Grace the Duke of Portland.

To-morrow the Right Hon. the Lord Chancellor holds the First General Seal before Easter Term.

It directly heals and cures all Manner of Soreness of the Eyes in Children or grown Persons, tho' of many Years standing, be it either of the dry, itching and smarting Kind, or moist, rheumy or watering, and whether proceeding from the Evil, or any other Distemper.

It effectually takes away all Specks, Films, or incipient Cataracts to Admiration, as also all Flies or Gnats, that seem to swim before the Sight; it wonderfully strengthens the Optick Nerves, comforts the Eyes, immediately removes all Dazzling and Dimness, clearing the Sight, and infallibly preserving it strong and good to exceeding old Age.

Hundreds who were so very dim-sighted for some Years, as scarcely able to distinguish any thing, and imagin'd their Age to be the Occasion, have been perfectly and almost instantly cured by it, so as to read the smallest Print without Spectacles; and for Ophthalmies, or Sore, Bloodshot, or Rheumy Eyes, no Medicine upon Earth can come near it; Thousands of Men, Women, and Children, have been cur'd by it of the very worst Sort, almost upon the Spot, and Blindness been prevented in abundance who had tried all other Remedies in vain, inasmuch that it may be almost accounted a miraculous Remedy.

No Family ought to be without it, nor ever will, after they have had but one Day's Experience of its admirable Efficacy.

PARALYTICON, seu Anima Nervorum, A stupendous Chymical Effence, which infallibly cures the Palsy, and all other NERVOUS DISEASES:

THE very first Dose of it (a few Drops only) instantly penetrates the inmost recesses of the minner Nerves, and darting almost as quick as Lightning thro' the whole Human System, diffuses kindly Warmth and genial Comfort to the

weak'd Limbs, and all Parts of the Body, and affords immediate sensible Relief in the most obstinate Palsy, and all Paralytick Efforts, Shaking, Trembling, Numbness, Deadness, and Weakness, whether universal, or of particular Parts only, or whether lately contracted, or of many Years Continuance.

And as the very first Dose makes an apparent demonstrable Amendment, so the continuing of it for a short Time as surely accomplishes a perfect Cure, not only of the most grievous Palsy or Resolusion of the Nerves, but also of their Cramp-like Contractions, Shrinking of the Sinews, and all other Nervous Complaints whatever that in Persons of either Sex, or of any Age, and when signified by preceding Illness, fast Living, hard Drinking, long Courses of Phlyck, great Cold, or excessive Fatigues either of Mind or Body.

Words cannot sufficiently express the uncommon, the un- Efficacy of this great Medicine, as all who take it frankly acknowledge, and its vastly superior Excellency to all other Remedies, may be more securely rely'd on, for the absolute Cure of the Palsy, and all Paralytick Effects and Nervous Indispositions, than the Celebrated Cortex is for Insensitiveness.

It rectifies all Disorders of the first Passages, creates an Appetite procures a good Digestion, enriches the Blood, restores the natural Vigour and steady Use of the Limbs, and strengthens the inflexible Joints, Muscles, Tendons, Ligaments, and whole Habit to an immense Degree.

It is also very pleasant to take, is comforting and cordial to the Stomach and Bowels, and for Safety might be given to the youngest Infant.

It is to be had only, by the Author's Appointment at Mr. Redford's Toyshop, at the Rose and Crown against St. Clement's Church-Yard, in the Strand, at 3 s. 6 d. a Bottle, with printed Directions a large.

The Universal Family MEDICINE,

Still more and more fam'd, after upwards of 15 Years Success with the Publick.

It sold by the Author's Appointment, only by Mr. King, Druggist, in the Poultry, near the Royal Exchange; by Mr. Martin, Toy-man, the Sign of the Duke of Cumberland, and the Three Rabbits, in Cranbourn Alley, near Leicester Fields; by Mr. Thomas Prentice, Postmaster of Bury in Suffolk; and by Mr. Hildyard, Bookseller in York, at 3 s. the Bottle Retail.

It is to be taken at any Season of the Year, and is so very agreeable to Young and Old, that Children take it without Trouble, a few Drops being a Dose; and so gentle, that it weakens not the most Aged; for it is a safe and effectual Alterative, to be taken in a less Dose than where Purging is necessary; an Excellence inherent in this Medicine, which is a singular Property well known to the Learned, to be in some Cathartic Medicines.

It is in particular,

A Certain and infallible Cure for the SCURVY, tho' of the longest Standing, and attended with the most aggravated Circumstances (a Distemper so common to English People, that not one in a thousand is wholly exempt from it, and great Numbers are sorely afflicted with it) being a cordial Elixir, peculiarly adapted to that Disease in all its Forms of appearing, from the slightest itching Humour in the Blood, to its utmost or last Efforts on human Nature.

For it is a true Specifick Cordial, that perfectly cures that Distemper by gentle Evacuation, by Stool and Urine, the only sure and effectual Way perfectly to cure the Scurvy, and prevent Relapses (notwithstanding what may be dreamt to the contrary) the Truth of which is witnessed to daily, by the many Thousands that have taken this Medicine. It so powerfully rectifies the Blood and Juices, that scrophulous Cakes are also speedily cured by it; and all Spots, Blotches, Pimples, &c. on the Skin, are quickly and entirely taken off, the Patients made lively and brisk, many chronick Diseases prevented, and a due State of Health secured.

It removes all Pain in the Stomach, helps Digestion, opens Obstructions, and is peculiarly serviceable to Maids inclined to, or troubled with the Green Sickness. 'Tis the best Medicine in the World to destroy Worms in Children or grown People, and prevent their Return; for it scours away all those ropy, viscid Humours which breed them in their Bowels, and is so well adapted to all Constitutions, that it is deservedly esteemed both in City and Country, the most general Family Medicine that ever was known to preserve Health, and hinder no Business or Recreation.

Good Allowance is given Wholesale by Mr. King for ready Money to Country Shopkeepers, &c. to sell again. This Medicine will keep many Years in any Climate.

The Directions given with it are large and full.
